The Honorable Rosa DeLauro
Ranking Member
House Appropriations Committee
U.S. House of Representatives
Washington, D.C. 20515

Dear Chairman Cole and Ranking Member DeLauro:

I am requesting funding for the Cosumnes River Multi-Benefit Project in fiscal year 2027. The entity to receive funding for this project is the U.S. Army Corps of Engineers. The funding would be used to provide technical, planning and design assistance for the Sacramento County Cosumnes River Multi-Benefit Project. The project is an appropriate use of taxpayer funds because it will increase public safety while providing environmental stewardship, economic stability, and climate resilience. This funding will support Sacramento County's efforts in identifying flood risk reduction measures along the Cosumnes River, as well as efforts to protect private water infrastructure and enhance habitat and water supply reliability in the Lower Cosumnes River, serves a multi-faceted purpose.

The project has a federal nexus because the funding provided is for purposes authorized by section 203 of the Stafford Act (42 U.S.C. 5133), as amended by Section 1234, National Public Infrastructure Pre-Disaster Hazard Mitigation, of the Disaster Recovery Reform Act (DRRA) of 2018.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Doris Matsui
Member of Congress
