

Congress of the United States
Washington, DC 20515

April 4, 2017

The Honorable Mario Diaz-Balart
Chair
House Appropriations Subcommittee on
Transportation, Housing and Urban
Development, and Related Agencies
Washington, DC 20510

The Honorable David Price
Ranking Member
House Appropriations Subcommittee on
Transportation, Housing and Urban
Development, and Related Agencies
Washington, DC 20510

Dear Chairman Diaz-Balart and Ranking Member Price:

As you craft the Fiscal Year 2018 Transportation, Housing and Urban Development, and Related Agencies Appropriations bill, we urge you to support \$200 million in funding for the Department of Housing and Urban Development's Choice Neighborhoods program.

The Choice Neighborhoods program funds the transformation, rehabilitation, and replacement of distressed public and HUD-assisted housing and supports communities working to revitalize neighborhoods of concentrated poverty. Building on the successes of the HOPE VI program, the Choice Neighborhoods program incorporates an innovative, holistic approach that leverages private resources to address affordable housing needs and community challenges that often surround troubled housing developments. It places a strong emphasis on local community planning for access to high-quality educational opportunities, including early childhood education.

Research suggests that growing up in high-poverty neighborhoods is a stronger predictor of downward economic mobility than parental occupation, education, labor force participation, and other family characteristics combined. As a comprehensive approach to serving both people and neighborhoods, the Choice Neighborhoods program holds great promise as a way to improve economic opportunity, reduce concentrated poverty, and revitalize distressed communities. The program's targeting of local community planning and implementation generates a ripple effect, attracting new private investment to the revived communities. For fiscal years 2010-2015, the program leveraged outside investment at a more than seven to one ratio, bringing in an additional \$3.69 billion. Thanks to the program's successes in transforming distressed areas in communities across the nation, there is significant demand for Choice Neighborhoods funding. The requested funding for FY 2018 would allow the Department to fund five to ten Planning and Action Grants, to be allocated through a competitive process, and six Implementation Grants.

According to the Urban Institute, for every 100 extremely low income renters, only 28 units of affordable housing are available, a dramatic shortfall at a time when the demand for rental housing is at record highs. Furthermore, continued cuts to public housing have contributed to a backlog of capital needs for the nation's 1.2 million public housing units of approximately \$26 billion, estimated by a 2010 study with each subsequent year accruing an additional \$3.4 billion in needed capital improvements for some of the country's oldest housing units. Despite numerous examples of successful Choice Neighborhoods partnerships that have helped to transform communities, investment in rebuilding our nation's most physically and economically

deteriorated neighborhoods is barely enough to cover even a fraction of the need. This demand demonstrates the wisdom of Choice Neighborhoods' approach in giving localities a tool to deal with distressed housing developments.

We urge you to maintain the federal government's commitment to community development through the Choice Neighborhoods program. The continuation of this relatively modest investment will have immediate and long term benefits in revitalizing and transforming distressed housing and communities. Thank you for your consideration of this request and your support for neighborhood revitalization.

Sincerely,

DORIS MATSUI
